EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claims 6-12 and 22-27 are hereby cancelled as being directed to an invention non elected without traverse (see details below).

REASONS FOR ALLOWANCE

2. On December 8, 2004, the examiner contacted Stephen Neal (#47,815) regarding the following restriction requirement:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 6-12 and 22-27, drawn to cache memory bank prediction, classified in class 711, subclass 204.*
- II. Claims 13-21 and 28-33, drawn to the use of two instruction pipelines coupled to a scheduler that is used to select a predicted cache memory bank, classified in class 711, subclasses 169 and 204.*

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as use without distinct instruction pipelines, since no pipelining of any kind was mentioned in the claims of this group. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

During a telephone conversation with Stephen Neal (#47,815) on December 8, 2004 a provisional election was made without traverse to prosecute the invention of Group II, claims 13-21 and 28-33.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

3. With regard to claims 13-21 and 28-33, none of the references cited by the examiner or by applicant, either alone or in combination, are deemed to teach or suggest each and all of the features of these claims. Consequently, these claims are hereby allowed.
